

FOR IMMEDIATE RELEASE

Arcadia Home Care & Staffing's Michigan offices have received reaccreditation by the ACHC

The Accreditation Commission for Health Care, an accreditation committee that focuses on alternate-site health care providers, has re-accredited Arcadia Home Care & Staffing. The ACHC had conducted surveys at six of our Michigan locations over the past two weeks, evaluating the quality of patient care, customer service, effectiveness and efficiency of our services in home care.

Arcadia Home Care was the first company in Michigan to be accredited for private duty by the ACHC in Michigan and we are proud to assert the uninterrupted ACHC re-accreditation. Our Michigan offices have continued to strive toward excellence for years and this accreditation confirms the efforts of our team. Our extremely professional compliance department has been able to stream-line the evaluation process through their diligence and experience.

At Arcadia Home Care & Staffing, we like to boast our ACHC accreditation as it sets us apart as a truly qualified and tested organization. Arcadia is one of the only three home care providers in Michigan to have accredited private duty. We want our customers to know that we have lived up to one of the industry's most scrutinizing gambits and have again passed with compliments to our great teamwork and quality care.
